

SPACEBRAINS

Inspiring the future

Inaugural benefit gala dinner

26 October 2018

Cité de l'espace, Toulouse

You are invited to join 'SPACEBRAINS', a new ESA-backed initiative that is set to offer a unique opportunity for young people pursuing studies and careers in space research and innovation.

We want to encourage the best minds, develop young talent and foster the space leaders of the future.

SPACEBRAINS is a non-profit foundation that will fund particularly ambitious and 'disruptive' projects of students and young scientists.

By accepting our invitation to the SPACEBRAINS inaugural benefit gala dinner on 26 October, you will be able to:

- become an honorary member of the 'SpaceBrains' foundation board,
- network with space industry experts,
- contribute to the creation of the foundation,
- dine with space pioneers and astronauts,
- participate in the first European 'Space Rarities' auction and 'Space Art' exhibition.

Be part of Europe's space adventure by securing your ticket today at: contact@marclabarbe.com

Private invitation, auction catalogue, detailed programme and membership card to follow.
